Bhairulal Teli

B.Tech-CSE Student

Surat, India   +919313217419   bhairulalteli07@gmail.com   [GitHub](#)   [LinkedIn](#)

Summary

Computer Science student with strong fundamentals in full-stack web development. Experienced in building scalable web applications using JavaScript, Node.js, Express, React, MongoDB, and Supabase with hands-on project work in system design, API development, and database management. Skilled in translating requirements into clean, efficient, and user-focused solutions.

Education

Uka Tarsadia University   *Jul 2023 – Jul 2027*
B.Tech in Computer Science and Engineering
CGPA: 08.79/10.00

Projects

[Next-Hire](#)

- Built a full-stack platform for DSA practice and real-time mock interviews.
- Implemented session-based interviews with video and chat using Stream API.
- Integrated secure authentication and user management with Clerk.
- Designed a dashboard for creating sessions and viewing past interview history.
- Developed a user-friendly UI using React, Tailwind CSS, and MongoDB.

[Vila-Restaurant](#)

- Full-stack web app using React and Supabase for hotel staff operations.
- Secure authentication & authorization; only existing staff can register new users.
- Manage cabins and bookings (create, edit, delete, check-in/out, filter/sort).
- Dashboard with today's activity and last 7/30 days insights.
- Implemented dark/light theme toggle, error handling, and desktop-optimized UI.

[Wanderlust](#)

- Built a full-stack Airbnb-inspired web app using Node.js, Express, MongoDB, and EJS.
- Implemented authentication and role-based access with Passport.js.
- Added property listings, image uploads, and user reviews features.
- Designed secure RESTful APIs and deployed the app on Render.
